Donor Dash for cash

Jack London, 3, received his red kitty face paint from Suze-Q-Z the Clown July 16 at Washington Park. London and his family were attending Donor Dash, a celebration for people awaiting an organ or tissue transplant, who have had a transplant or have donated in the past.

The Donor Dash was started in 2000 by the Donor Alliance to raise awareness for people in need of organ and tissue donations in Colorado and Wyoming.

A 5K fun run was held at 8 a.m. along with other races for children, and even a "Diaper Dash" for kids under 3. The event culminated in an award ceremony later that morning.

This year, Donor Dash sponsors invited people to put the name of a donor, family, recipient or waiting list patient on event T-shirts. The Donor Dash also encouraged large teams to participate by offering special prizes to teams of more than 10.

'Rainbows' bring peace, litter to Nat'l forest
