

# REGISTRATION NOW OPEN!

**FRIDAY, OCTOBER 30, 2009**

Princeton, N.J.

8:00 am.-4:30 p.m. (lunch provided)

## PRESCHOOL CURRICULUM DECISION MAKING:

Exploring Key Curriculum Models and  
Reviewing the Evidence-Base

*Sponsored and Funded by the Education Research Section of the Woodrow Wilson School  
at Princeton University*

*Co-Sponsored by The National Institute for Early Education Research and The Division of Early  
Childhood Education of the New Jersey Department of Education.*

This noteworthy conference on preschool curriculum is generously offered at no cost to superintendents, child care directors, early childhood supervisors, principals, or any other school personnel who shares responsibility for or is influential in the preschool curriculum decision making process. This may include districts or centers not yet implementing a published curriculum, those who are unsure about their current curriculum, or those exploring a change in curriculum.

We are proud to present 6 curriculum models including HighScope Preschool Curriculum, Teaching Strategies' Creative Curriculum for Preschool, Tools of the Mind: A Vygotskian Based Early Childhood Curriculum, Curiosity Corner, the Pyramid Approach for Young Children, and Opening the World of Learning. This conference is designed as a forum for participants to learn about the philosophy of the curricula, the research supporting each curriculum, how each approaches differentiated learning, and implementation issues or struggles. The presenters for each curriculum will be the curriculum developers themselves. The day will end with voices from the field, teachers who have implemented the curriculum, providing direct feedback on using the curriculum.

Additional information and registration details may be found at
